

Anantrao Pawar English Medium School,
Chincholi
Executive Parents Teacher Association
Activities, Report- 2022-23

PTA plays a crucial role in all the schools. It helps for the parents and teachers to interact with each other for the development of students. Anantrao Pawar English Medium school is also not an exception for the same. School's Executive PTA committee was formed in the month of June by electing the parents from each standard. One parent member and a class teacher from each standard was included in the new working committee. Altogether 10 parents and 10 teachers were part of this committee. The committee worked with full zeal for a year and tried to fulfil the objectives for the respective year.

Like every year this year also various activities were planned and carried out successfully by the School with the support of the PTA committee.

On Account of Women's day school

conducted different competitions for the parents. The series of the competition started with the cooking competition and the theme selected for it was *Millet*. School got an overwhelming response from mother parents for the competition. The parents showed their creativity and presented a variety of sweet and spicy dishes by using millets.

Through this competition students learnt the spirit of teamwork, culinary skills, appreciating the hard work put into cooking. The aim of this competition was also to provide a platform for parents to showcase their talent and explore new areas of interest. It encouraged students to stay away from junk food.

Another competition was the dance with kids. Parents participated with full grace, energy and enthusiasm. All the performances were just incredible like icing on the cake. As it is said that the best inheritance a parent can give his children is a few minutes of his time each day. And so to enhance the parent child bonding, Dance with Kids competition plays an important role. Each dance portrays the strong bonding of parent and child. Whereas group dance competition helped students to understand that the key to success is teamwork.

Fancy dress competition was also arranged by the school for the parents. This was just like a cultural fest for all parents as the theme was related to Indian culture and the response for the competition was incredible.

The competition proved to be the best learning experience for the students and parents also. This way school gave parents a platform to explore their hidden talents. The main objective behind it was to make students familiar with Indian culture where the parents were fully supportive.

School conducted Parent's Sports Day, where the parents played different team games like Kho-Kho, Throwball, Dodgeball and many more games. Parents participated actively in all games. The sports day of parents was not about competition, it was about having fun and being physically active, so as to give parents an opportunity to display their self confidence, patience and sportsmanship. It helped students to balance the success and failure properly and to take the sports competition sportively. By their actions parents gave this lesson to their kids.

With the great support of PTA, the school conducted a marathon for students and all the parents. It was a mesmerising experience for both school and parents. This event taught all

that a healthy body leads to a healthy mind. It was the first time that such activity was conducted by the school.

In the year 2022-23 ,to fulfil the objective of holistic development of students, school and the parents worked collaboratively. This led to great results. Parents' feedback for different activities encouraged the school a lot. President, Smt. Sarita Shinde's guidance and support made these activities a great success. It was reflected in the PTA newsletter also. This became possible with the collective efforts of the school and PTA committee. It will keep on making progress in the upcoming years as well.

Mrs.Manisha Malgunde
Secretary, PTA.
