Joyful Learning with Play-Way Method

Colourful world for tiny tots

Student's Achievements

Era Wakase –HKG

1st Rank in Role Play of Jijau, on account of Shivajayanti, organized by Chatrapati Foundation Bhigwan

Vidhi Dhobada – II

Class Rank in S.O.F G.K . Science and English

Sanskar Bhosale -V

1st Rank in Taluka Level Marathi Elocution Comp.

Sanchita Malgunde -VII

First rank in 'Shighrakavya Spardha' and Bilt Essay Writing .

Swaraj Mhere- VIII

2nd rank in Slogan writing comp. Taluka Level Indapur

Aditya Solanakar -VIII

Presented a model for 14th National Maths Convention – organized by- 'All India Ramanujan Maths Club'.

Shravani Wable –VIII

1st Rank in Essay writing Competition - Bilt Safety Day

Tunishka Galande -VIII

1st rank in Drawing Competition. - Bilt Safety Day

Anushka Ekad, Anikaith Chougula, Samruddhi Kokare, Shrishti Singh, T. Shriharshini, Received 2nd and 3rd rank for- Bilt Safety Day- **Essay writing & Drawing competition.**

Teachers Achievements:-

Three teachers from our school have achieved :

Excellence Award by ISSER Pune & Ticklink.com at National Level

Mrs.Nirmala Addapalli

Mrs.Manisha Malagude

Mrs.Sonam Gavali

Mrs.Jyotsna ,Mrs.Nirmala presented paper for
14th National all India Ramanujan Maths Club

Principal,Smt.Sarita Shinde presented a paper in the International webinar with the title 'The Role of Art Integration to Explore Happiness in Education'. It has been published in the journal 'Educare' with ISSN.

Report Section

Academic Competition report of 2020-21

For academic year 2020-21 school has conducted the various competitions for the students. Due to the pandemic, competitions were conducted on the online mode. The main objectives behind the conducting competitions were to develop confidence, interest and speaking skills among students.

The competitions which were taken by school are as follows:

Story telling with Prop, Mono Act, , Drama Reading, Poem Recitation, Elocution, Art Integration Project and Math Model Making. As we all are aware of year 2020-21 is a pandemic year due to covid-19. We tried our level best to make the students engaged in different activities.

Group/Class	Subject	Name of the Competition
Nursery	English	Story Telling
	English	Poem Recitation
L.K.G.	Hindi	Story Telling
	English	Poem Recitation
	Hindi	Poem Recitation
H.K.G.	English	Story Telling
	English	Poem Recitation
	Hindi	Poem Recitation

I	English	Handwriting
I	English	Story Telling
I & II	English	Handwriting
II	English	Elocution
I	English	Story Telling
I & II	English	Handwriting
III	English	Elocution
V & VI	Hindi or Marathi	Drama Reading
IV	All subjects	Art Integration Project
VII & VIII	Maths	Model Making

As a whole, the academic competitions help the students to increase their interest and core knowledge of the subjects. It gives a live experience and develops academic background that can bring fame in their future.

Mrs. Manda Bhosale.
Academic Incharge.

Annual Report of Cultural Committee - 2020 -21

The year 2020 -21 is a pandemic year we all were facing and fighting with Corona (Covid-19) Keeping this in mind ,we have started to keep the children engaged in their online classes. It was a big task to bring out the talent from students when they were not in school with this thoughts we have planned E - Competition where students participated virtually by sharing their videos, audios on WhatsApp and Mail Ids.

Competition	Std
Idol making with 3D effect	VI-VIII
Dance Competition	I- IV
Fancy dress Competition	I- II
Singing (Patriotic song)	III,IV
Mimicry(TV or film actor)	VI-VIII
Mime Act with family members	V-VI
Fancy dress Competition(Character of serial)	Nur . to L.K.G
Solo Dance (festival/Patriotic kids)	LKG and HKG
One Act Play	III and IV
Podcast Making	V to VIII

It gives us great pleasure to tell that though students were at home they have given their best performances and made the competitions successfully. Here are the competitions that students have performed through out the year Idol making eighth 3D effect, Dance competition, Fancy dress ,Solo dance, Solo singing etc.

Cultural Incharge

Competitive Exam Report - year 2020-21

The year 2020 is pandemic year that we all know ,the education process started online where students were at home . To make the student update for facing the challenges that are coming on the way. The SOF has taken step for the same and organised online exam for the student to compete with today's world.

The school grab the opportunity for the same and made the platform available to students to participate in the exam. From the school 8 students were participated for the different subjects of SOF and they come up with flying marks and received participation certificate for the same.

Here I feel very happy to tell that this year also our school result for competitive exam is 100%.

Mrs. Jyotsna Patil
Competitive Exam Incharge.

Health And Wellness Committee Annual Report 2020-21.

Health is a current & very important issue in this covid-19 pandemic situation. Our school has taken care for our students as well as parents by providing them various sessions, guidance videos & arranged fitness week throughout the year. We are happy to share the report behalf of health & wellness committee.

On the date of 25th October School has arranged the live interactive session for Pre-Primary, std 1st and std 2nd by Dr.Smita Khanaware on the topic of '**Growth and Development of the Kids.**'

Government of India & Ministry of Sports asked to all the Schools to arrange the "School Health Fitness Week" so our School has organised on Online mode whole week sessions for the students and parents guidance for the awareness about their health and fitness was given.

Following activities were conducted -

- 1) Free hand exercises and Aerobics, Yoga and Family fitness sessions taken by our Sport teacher Mr. Ingale.
- 2) Diet and Nutrition session taken by Dr. Aditi Godase.

3) Dr. Neha Sabade guided the students on topic Power Of Fitness for Students.

4) For the Mental Health- Chess and Rubinox - how are helpful ? explained by Our Ex Student Mast. Shivam Walunj.

5) On the last day Online Quiz was arranged for whole school to aware about Health,Fitness,Sports and prevention from Covid-19.

Pre-Primary-	1) Jumping on Spot 2M. 2) From Jump and bring the things 3) Simple Yoga Postures.
* Primary-	1) Skipping 3M. 2) Weekly dishes made in home. 3) Standing Yoga Asanas 4) Push-ups 25 in 5M.
* Secondary-	1) Suryanamaskara 12 in 5M. 2) Yoga and Pranayama 3) Aerobic dance forms 4) Side effects of Junk food.

Mr. Navanth Ingale

Health and Wellness Committee Incharge

My School Memories

The good memories are the good experiences one gets in his life. The good memories include; school life memories including primary, high school, and college and university life memories. The memories of school life period, are definitely the treasure to cherish for the rest of our life. The school life is the best life. We get good learning experience, the self-confidence, motivation and the will to do the best. It is the school life that blesses with best ever friends for the rest of our life. Myself Tanushka Vijay Galande from Std 8 th studying in Vidya Pratishthan's English Medium School Bilt Bhigwan.

The school days are the best days of my life. I clearly remember my first day at school. My first day school life memories are still vivid can still feel how warmly I was welcomed at the school. I remember the first year love and wishes from my teachers. That time I was in LKG class. As we were small children our class teacher always allows us to go for playing. But, apart from this sometimes she used to give us lots of homework for doing at home. That is why I always regard my primary school life memories as the treasure for my life .After primary section I gone in secondary section (in class 6th).It was our Annual function, I was being selected as the anchor for that auspicious day. I recalled the whole session, about all those competitions. I had been preparing for 'the sports day', co-curricular activities, etc. were the fields in which I had worked so hard.All my friends and I were excited for this day of Annual function so long. But we also knew that to know the results of all those competitions, we'll have to suffer the lecture of our principal ma'am. Just after the speech got over, claps followed the silence of that place and the event of prize distribution started! To my announcement, I got 2 gold medals in sports and first prize in drawing competition which was going to get in Bilt Company. When I entered in class 7th my wish was to be the school Vice-captain Girl. My this wish was completed on the day when I became school vice-captain girl. I was really thankful of my juniors and seniors and even my lovely teachers who have trust me and voted for me.

Being a school vice-captain there were lots of responsibilities But, Shreya , Digvijay , Swaraj and my teachers have always supported and helped me. I thanks to all of them. While attending Sanskrit period it was so much fun because sir used to teach us in essay and funny way. Others Subjects were also nice but Sanskrit was best for me. After completing class 7th, I entered in class 8th. But due to pandemic situation of covid-19, we all have attended school in online mode. But, school was reopen for 15 days in February month in which we all have meet our school friends and teachers. It is said that a person always remembers his first day at school and the last day at school. The first day a child remembers because he came there weeping. And the last day a student remember because he left the school weeping again. In my case, I remember clearly my first day at school and my last day at the school. The joys of school life are surely countless. Indeed, the school days are the best of our lives...

- Tanushka Galande

Std-VIII

SCIENCE AND TECHNOLOGY

Science and technology are one of the most important parts of our day to day life. We get up in the morning from the ringing of our alarm clocks and go to bed at night after switching our lights off. All these luxuries that we are able to afford are a result of science and technology. Most importantly, how we can do all this in a short time are because of the advancement of science and technology only. It is hard to imagine our life now without science and technology. Every day new technologies are coming up which are making human life easier and more comfortable. Thus, we live in an era of science and technology. Science and Technology have introduced us to the establishment of modern civilization. This development contributes greatly to almost every aspect of our daily life. Hence, people get the chance to enjoy these results, which make our lives more relaxed and pleasurable. If we think about it, there are numerous benefits of science and technology. They range from the little things to the big ones. For instance, the morning paper which we read that delivers us reliable information is a result of scientific progress. In addition, the electrical devices without which life is hard to imagine like a refrigerator, AC, microwave and more are a result of technological advancement. Furthermore, if we look at the transport scenario, we notice how science and technology play a major role here as well. We can quickly reach the other part of the earth within hours, all thanks to advancing technology. In addition, science and technology have enabled man to look further than our planet. The discovery of new planets and the establishment of satellites in space is because of the very same science and technology.

Similarly, science and technology have also made an impact on the medical and agricultural fields. The various cures being discovered for diseases have saved millions of lives through science. Moreover, technology has enhanced the production of different crops benefiting the farmers largely.

Ayush kadam Std. VIII

Just For Trees

If there are no trees life on earth cannot be sustained. Trees provide us what we vitally need to stay alive. They provide us with oxygen. If we cannot breathe in oxygen we will perish.

Trees produce oxygen as the result of the process of photosynthesis that takes place in them. In this process, carbon dioxide and sunlight are used up and oxygen is produced that is released into the air. There is thus a constant supply of oxygen from trees during daylight hours when photosynthesis occurs in trees.

It is this process that also keeps the levels of carbon dioxide in the air at low levels. If trees are cut off carbon dioxide levels go up. Carbon dioxide being a greenhouse gas, the result is a warming up of the atmosphere. This phenomenon is known as global warming. It results in climate change that is affecting people around the world. The easiest way to combat global warming is to save trees and also grow more trees.

Trees also help us by providing us food. Not only does man, but all herbivorous creatures too, depend on trees for their sustenance. By cutting off trees we harm ourselves. It is therefore important to save trees.

Chaitanya Wabale Std. VII

Hope of light in dark night..

The light full of hope in life
 But as walking as on the knife
 What's this dilemma in world?
 I wish it would be hurled
 Situation of everyone is problematic and onerous
 Nothing to the mind smells odorless
 Is this satiation or exile
 I don't know because no one is seen in an area of a mile
 Everyone tries to repudiate this pandemic
 But now the world says that stay home till end of epidemic
 Egalitarian governing is in country
 But I don't think we made unity tree
 Hitherto as being a soulless
 Is a crime for also being an inactive and a heartless?
 This time is worse than crashing a bolide
 Because by ending of earth we can have hell or heaven side.
 At last I heartily want to say
 In this harsh way.
 Everything that starts has an end,
 So to that time make loneliness as your friend.

Adity Solankar, Std. VIII.

Diary Entry

School at Home

Wednesday 9:30pm

21 may 2021

Dear Diary,

During this hard time I am so curious about that when will school open but I am comfortable at home also to do study. Teachers teach very nicely and easy concepts which will fill that we are in school only. This way I learn that the school can also be at home. Though this is very new system. We started to adopt it. But one thing I am missing my friend very much. We can't .But I call my friends in home .In online we take out notes which made us more easy .I not seen my school from long time I missing my school very much. In school we do prayer we tell preamble and most importantly the national anthem In online we cannot take this important things of our school .

Our teachers also says that we also miss you. They also tell that we think that our students are sitting on benches in school and we are teaching practically to all students. i attend all classes regularly and the teacher teaches very nicely so I feel that I am not in school but school is at home and we study nicely.

Mukesh Rade std. VII

Good citizen of Safety

Safety is important for all from small child to an adult person. As a good citizen it is our responsibility to follow each and every safety rule. We should follow safety rules on road like if any older person is walking on road, we should help them to cross the road. We have to follow safety rules as well as. When there is Red light on traffic signal we have to off our vehicle to decrease the air pollution. These are major safety rules that we should follow on road. We also have to maintain proper social distance for our safety. Also maintain safety at home, small kids should be away from electric objects, sharp objects, medicines, and from dangerous things. Also maintain safety while playing, in case if any injury occurs and if it is normal we should apply antiseptic cream or bandage and if it is serious then immediately go to doctor. Then another one thing, some people throw garbage in an open area because of these all other people have to face many difficulties we may get sick because of the disease caused by the garbage. We should clean that garbage as a good citizen of safety and we should aware all the people of society of the cleanliness. There are not many things to do, just few are there to follow. And we should and we will follow all these safety rules and we will be a good citizen of safety. Clean India, Green India.

Anushka Ekad Std. VI

SCHOOL AT HOME

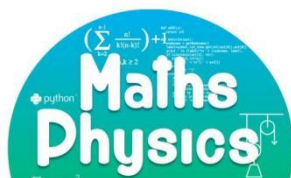

School at home is very good due to online teaching. Online teaching is a good platform but it is not for everyone. From last few months we are here at home. Don't know how long, it will continue. Though we are learning every subject from home, it's very hard to cope with.. Teachers are taking efforts on their way, but I don't like the way I learn. The online teaching has some advantages. We are at home. No need to travel. No need to stay in group. We can avoid mobs. We are safe here at home. But still many restrictions are there.

But it has some requirements like a good internet connection and an interface, but not every student can afford these things. Moreover, the blue screen of these gadgets can affect the eyes of us if we continue to look at the screen for a long duration. There is another drawback that a teacher cannot monitor the body language of the students and ensure their focus. School at home is also helpful to us because if we are not giving answer then teacher can't beat us.

Ashutosh Galande Std. VII

PHYSICS AND MATHEMATICS

The description of nature becomes easy if we have the freedom to use mathematics i.e. The gravitational force between two masses is proportional to the product of the masses and is inverse proportional to the a square of the distance apart.

The techniques of mathematics such as algebra, trigonometry and calculate can be used to make predictions from the basic equations Thus, mathematics is the language of physics without the knowledge of mathematics, it would be much more difficult to discover, understand and explain the laws of nature.

Since, Physics is the study of nature and its laws, the great physicists Aryabhat, Newton, Einsten or Feynman observed the things around them and guesses also framed the laws of Physics which were further explained in a concerning ways in the form of new phenomenon only with the help of mathematics. So, Physics is incomplete without Mathematics.

Politics

The shadow of every festivals scares me.
Fear the opinion of the religious gurus.
Oh politics! we are afraid of your kindness,
Sometimes a goat and sometime a cow.

-Aarohi GandhalikarStd -VII

Humanity

Somewhere it became difficult to be Hindu,
Somewhere a Muslim:
Because humanity is lost, man is dead.

-Aarohi Gandhalikar Std -VII

My Dearest Mummy

You are like the morning Sunshine,
 always happy, always divine,
 Mother you are so caring,
 always tender and so loving
 You have brought up us so far,
 the most patient and
 lovely you are,
 When in this dark world
 we were new,
 we had such a precious
 'Mom' like you
 We are lucky to have 'mom'
 so God fearing,
 Who always prays when
 dangers nearing.
 How much ever we "thank" is less,
 but we pray for you that
 God will bless.
 May God help you more and more,
 to help and guide those
 who come to door.
 You for us worked so hard,
 and kept around us, the
 spiritual guard.
 Dad, you are blessed
 with such a wife.
 May God grant her,
 the longest life.

:- Anushka Solankar VI

VALUES

Let's EMPOWER our lives....

SIMPLICITY- the beauty of all values.

TRUTH- the foundation of all values.

CONTENTMENT-the embodiment of all values.

RESPECT-the demonstration of all values.

CHEERFULNESS-the evidence of all values.

INTROVERSION the key of all values.

HUMANITY-the protector of all values.

DISCIPLINE-the flavour of all values.

PATIENCE-the fortress of all values.

SWEETNESS- the taste all values.

COURAGE-the heart of all value.

PURITY-the heart of all values.

LOVE-the queen of all values.

PEACE- the king of all values.

HONESTY- the guru of all values .

Anushka Solankar Std..VI

Life.....

Life is an opportunity, benefit from it.
 Life is a dream, realize it.
 Life is a beauty, admire it.
 Life is a challenge, meet it.
 Life is a game play it..
 Life is a duty completes it.
 Life is a promise fulfils it.
 Life is a sorrow, overcome it.
 Life is a song, sing it
 Life is a struggle, accept it..
 Life is a tragedy, confront it..
 Life is an adventure, dare it.
 Life is a luck make it
 Life is too precious, don't destroy it.. Life is a fight, fight for it.

Ananya Sharma, std- VI

Poem – Never say Farewell

(Dedicated to my special friend Risha)
 While going along, remember some lines of mine
 Never say farewell.
 Crying or laughing, keep dancing like this.
 But never say farewell,
 Once just get lost in the school days.
 How u scolded me and sometimes supported me.
 Just keep decorating your dreams just like this.
 But never say farewell
 This friendship is not any destination,
 And friend if we get apart in between,
 And day u will feel that the path of life is
 some what lonely somewhere..
 If you call back I will come
 So never say farewell
 Never say farewell

Ananya shrama Std-VI

Unity in diversity

Neither any caste nor any religion, a person
 Should be recognized by his deeds, "In the name of
 Caste, some people will provoke you, do not go near them
 otherwise you will also be deluded, you have to do such
 work among yourself, brotherhood, unity of the country
 we have to always keep it strong, unity
 In diversity is the identity of our country,
 because the culture of our country is the
 greatest among all countries.

-Aarohi Gandhalikar Std- VII

Sarva Dharma Samabhav(Secularism)

Breed has no
 "religion"
 Water has no
 "caste".
 Where "Humanity's alive
 there is no question
 of 'religion'.....!

-Aarohi Gandhalikar Std-VII

INVENTING THE AIRPLANE (A book review)

Invention is where poetry and engineering come together. It is a creative endeavour where the heart beats faster with each intuitive leap, yet success is measured by the stern, unforgiving ruler of the Scientific Method. It's not a predictable process; you never march a straight path to your goal. Instead, you crisscross the same ground over and over again as you search for the answer that you're sure is there somewhere. Every successful invention is the result of false starts, dead ends, disappointments, self-doubt, perseverance, and the elation that comes when your faith in yourself is at last rewarded. Nowhere is this more evident than in the tale of the invention of the airplane. It was one of the most perplexing and dangerous research projects ever attempted, and it came within a hair's breadth of death and disaster many times. The Wright brothers built seven flying machines in their quest for a practical aircraft, each a test bed for untried theories and assumptions. When they guessed wrong, they crashed -- and the Wrights crashed each one of their aircraft more than once. However, knowing what doesn't work points the way to what does. After each failure, they rebuilt and modified their aircraft, incorporating what they had learned in the new design. In less than a decade they taught themselves to fly.

TIMELINE:1896 The Wright brothers read news stories of glider pilot Lilienthal's death. They surmise it was caused back lack of control and begin to think about a control system for an aircraft.

1899 to 1899 The Wrights read everything they can find on aviation and aeronautics.

1899 Wilbur is twisting a long, slender box in his hands when an idea hits him for an aircraft control system. By warping the wings, he could control roll, banking an aircraft left and right. The brothers test the concept with a kite and it works like gangbusters.

Spring 1900 to Summer 1900 Wilbur looks around for a place to test a glider. He settles on Kitty Hawk, North Carolina because the high winds will help launch a glider and the soft sands will cushion a rough landing.

Fall 1900 The Wrights build their first glider with wing warping controls and fly it a Kitty Hawk. It does not produce the desired lift, but the controls work well and they are encouraged enough to try again. That Wilbur gives to the Western Society of Engineers is well-received, he and Orville decide to carry on. They test over 200 wings shapes in a wind tunnel to find which ones produce the most lift. The brothers build a new glider based on the results.

Fall 1902 The Wright's third glider produces the expected lift, but is still hard to control in a turn. They decided to make the tail movable, and this cures the problem. They make flight after flight, gliding over 600 feet. They begin to plan a powered machine.

Winter 1902 to summer 1903 The Wright contact engine manufacturers and look for literature on designing propellers, but to no avail. They decide to make their own engine and they invent a method to design efficient propellers.

Spring 1903 Octave Chanute tells the Aero-Club de France about the Wright's experiments, and the members begin to copy Wright gliders in an attempt to beat them into the air with a practical airplane.

Fall 1903 to Winter 1903 The Wrights construct their first powered flyer at Kitty Hawk while making practice flights in their 1902 glider. They have trouble with the propeller shafts, requiring two trips back to Dayton to repair them. They aren't ready to test the Flyer until mid-December. December 17, 1903 The Wrights make the first sustained, controlled, powered flights in an airplane, the Flyer 1, covering up to 852 feet and staying in the air for up to 59 seconds. After four flights, the aircraft is overturned by a gust of wind and destroyed.

Spring 1904 to Summer 1904 The Wrights build the Flyer II, a copy of the Flyer 1. They resume test flight at Huffman Prairie, a field near Dayton, Ohio, but find their new machine has too little power to make more than brief hops.

Fall 1904 The Wright build a catapult system to sling their underpowered Flyer 2 into the air. It works well, and they begin to make progress again. Although they find the Flyer 2 difficult to control, on September 20 they fly the first complete circle in an aircraft. 1905 The Wright completely rebuild their aircraft, salvaging only the engine, propellers, and hardware. The new Flyer III is much easier to control, and the Wrights begin to stay in the air for longer and longer periods of time. On October 5, Wilbur flies for 39 minutes, covering over 24 miles and running the gas tank dry. The Flyer 3 is the world's first practical airplane.

The Blue Umbrella, (A book review)

The blue umbrella is a novel of children genre. It is about a young girl, Bindya Devi, and her family live in a small village. She is a simple girl with realistic dreams. The story has multiple emotions including materialistic love, jealousy and kindness. Bindya is a girl who belongs to a poor family and they are just surviving. She does not have anything precious except one thing, a bear claw necklace. It is precious because it is a good luck charm at least this is what her mother thinks. One day, while doing chores Bindya saw a beautiful blue umbrella but it belong to an, English women. She stared staring at the umbrella, the English lady saw her, the lady looked at her and her bear claw necklace. She wanted to have a bear claw necklace the same as Bindya wanted her blue umbrella. When the lady asked, Bindya offered her bear claw necklace in exchange for the blue umbrella. When Bindya got the umbrella she was very happy. All the people in the village admire her beautiful blue umbrella and were jealous of her. They always thought about how did Bindya manage to get such an expensive umbrella when she was really poor. Bindya did not care about others. She kept umbrella and took it where ever she went. She was in love with that beautiful thing. There was a shopkeeper name Ram Bharosa, Bindya and her brother used to buy toffees from him. He saw Bindya's umbrella and wanted to own it. He offered Bindya free toffees in exchange for the umbrella. But, Bindya's love for the umbrella was so strong that she refused to take toffees. Ram Bharosa got angry and one day he asked his servant who was little boy, to get the umbrella. The boy planned to steal the umbrella and when he failed, he told Bindya's brother that Ram Bharosa gave him a taste of stealing the umbrella. Everyone on the village came to know about what Ram Bharosa did to better person. The same day Bindya realized that she did not need an umbrella to be happy or to look pretty. She had family, villagers and beautiful nature to make her happy. She lost her love for the umbrella and gave it to Ram Bharosa when he gave her the toffee. Ram Bharosa had a smile on his face. He did become a less greedy person. People started forgetting about what had happened earlier when Bindya forgave Ram Bharosa. They started buying things from him again. His shop started getting crowded again but this time there was something new, Ram Bharosa behaved unselfishly with his customers and always had a smile on his face

सपने

सपने तभी पूरे होते हैं ,जब उन्हें पूरा करने के लिए दिन रात मेहनत की जाए , वरन सपने देखते ही देखते जिंदगी गुजर जाती है और कोई सपना पूरा नहीं हो पाता। जिन्हें सपना देखना अच्छा लगता है, उन्हें रात छोटी लगती है और जिन्हें सपने पूरे करना अच्छा लगता है, उन्हें दिन छोटा पड़ जाता है। जहाँ विश्वास है, वहाँ शक्ति है ,वहाँ जीत है और वहाँ आपके सपने पूरे होते हैं। सपने किसी की भी जहाँगीरी नहीं होती, ना तं सफलता किसी की गुलाम होती है। इसे पाने के लिए ईमानदारी से परिश्रम करना जरूरी होता है। एक सपना जादू से हकीकत नहीं बन सकता। सपने पूरे करने के लिए दृढ़ संकल्प और कड़ी मेहनत लगती है। जो लोग सपने देखने की हिम्मत रखते हैं ,वह पूरी दुनिया जीत सकते हैं। हमारे सभी सपने सच हो सकते हैं। अगर हम उनको पूरा करने का साहस रखें। सितारों तक हम भले ही ना पहुँच सके लेकिन उनकी तरफ निगाहे तो होनी चाहिए। सपने छोटे नहीं बल्कि बड़े होने चाहिए। जो इंसान की जिंदगी बदल दे। दुनिया में हर चीज ठोकर लगने से टूट जाती है। एक कामयाबी ही है जो ठोकर खाकर मिलती है। सपने वह नहीं है जो सोते वक्त देखते हो। सपने वह है, जो तुम्हें सोने नहीं देते। सबसे महत्वपूर्ण बात यह कि सपने को चकनाचूर हो जाने पर दूसरा सपना देखने के हौसले को जिंदगी जीना कहते हैं।

हर सपने को अपनी साँसों में रखो।

हर मंजिल को अपने बाहों में रखो।

हर जीत आपकी होगी ,

बस अपने लक्ष्य को अपनी निगाहों में रखो।

पंछी

पेड़ की शाखा पर बैठा

पंछी कभी भी डाल

हिलने से नहीं घबराता।

क्योंकि पंछी को डाल पर

नहीं अपने पंखों पर

भरोसा करना होगा।

इंसान चाहता है कि

पक्षियों को रहने को घर मिले।

परिंदा कहता है कि

उसे उड़ने को पर मिले।

आजादी मिले तो हम

भूल जाएँगे गम।

अनन्या शर्मा कक्षा - छठी

जिंदगी

हर खुशी है लोगो के दामन में
पर हँसी के लिए वक्त नहीं...।

दिन-रात दौड़ती दुनिया में
जिंदगी के लिए ही वक्त नहीं...।

माँ की लोरियों का एहसास तो है
पर माँ को माँ कहने का वक्त नहीं...।

सारे नाम मोबाईल में है
पर दोस्ती के लिए वक्त नहीं...।

गैरो की क्या बात करे
जब अपनों के लिए ही वक्त नहीं...।

आँखों में है नींद बड़ी
पर सोने का तक वक्त नहीं...।

पैसो की दौड़ में ऐसे दौड़े
की थकने का भी वक्त नहीं...।

अनुष्का सोलनकर कक्षा - छठी

परिश्रम का महत्व

परिश्रम मानव जीवन का हथियार है। जिसके बल पर भारी से भारी संकटों पर भी जीत हासिल की जा सकती है। परिश्रम वह गुण है, जिसे अपना लेने पर व्यक्ति के दुख मिट जाते हैं। परिश्रम सफलता का मूल मंत्र है। यह कभी भी बेकार नहीं जाता। परिश्रमी लोगों ने संसार में बड़े बड़े कारनामे कर दिखाए हैं। वे बाधाओं से लड़ते हुए अपने जीवन लक्ष्य की प्राप्ति कर ही लेते हैं। किसान और मजदूर अनाथ आश्रम करते हुए संसार को भोजन वस्त्र और आवास प्रदान करते हैं। व्यापारियों और पूंजी पतियों के श्रम से देश में रोजगार के नए- नए अवसर प्राप्त होते हैं। जिन लोगों ने परिश्रम को पूजा माना है, संसार ने उनकी पूजा की है। जीवन की दौड़ में श्रम करनेवाला भी चाहिए होता है। लेकिन आलसी लोगों को हार का मुंह देखना पड़ता है। इसलिए हमें परिश्रमशीलता और कर्मठ बनना चाहिए। परिश्रम से भाग्य को भी बदला जा सकता है।

क्या कमी रही वह देखो तुम

प्रयास करो जब तक न सफल हो तुम।

नींद ,चैन , आलस को त्यागो तुम

संघर्षों का मैदान छोड़ कर मत भागो तुम।

मुकेश रडे

माँ

माँ दुनिया में सबसे न्यारी

मुझको है सबसे प्यारी

माँ मेरी स्नेह की मुर्ति,

मेरे जीवन की है पूर्ति

बड़े प्यार से मुझे समझाती,

गलत आदते दूर हटाती

अच्छी- अच्छी बातें बताकर

नई चीजें मुझे सिखाती।

अनुष्का सोलनकर कक्षा - छठी

कभी कभी...

कभी कभी मेरे दिल में खयाल आता है,
 कि ये जिंदगी एक पन्ने के जैसी है।
 गम दे तो जल जाती है,
 और खुशी दे तो लब्जो से भर जाती है।
 मेरी जिंदगी भी कुछ ऐसी ही है,
 किसी पन्ने समंदर और फूलों की जैसे,
 कभी कभी पन्ने के जैसे जल जाती है,
 तो कभी कभी खुशीयों से भर जाती है।
 कभी कभी समंदर की लहरों से लहराती है
 तो कभी कभी जाने अनजाने में ही थम जाती है।
 और कभी कभी फूलों की तरह
 खुशबू जैसी खिलती है
 तो कभी कभी बेवजह
 राह देखकर मुरझाती है।
 जिंदगी में कुछ ऐसे ही
 अधुरे ख्वाब रह जाते है कि

इसी वजह से हमारी जिंदगी हम
 पन्ने, समंदर और फूलो की तरह बनाते है।
 जिंदगी एक अजी बसा खयाल है
 कि जो आँसूओ को पिती है
 और मौत को गले लगाती है।
 ऐसी ही है हमारी और आपकी जिंदगी
 जो तनहाइयों से भरी होती है
 और जिस्म के मुकाम बनाते जाती है।

 उस काम के लिए
 धन्यवाद दे सके।

विविधता में एकता

हिंद देश के निवासी सभी जन एक हैं,
रंग, रूप, वेश भाषा चाहे अनेक है।

भारत एक ऐसा देश है जो "विविधता में एकता" की अवधारणा को अच्छे तरीके से साबित करता है। भारत एक अधिक जनसंख्या वाला देश है तथा पूरे विश्व में प्रसिद्ध है क्योंकि यहाँ "विविधता में एकता" का चरित्र देखा जाता है। "विविधता में एकता" भारत की शक्ति और मजबूती है जो आज एक महत्वपूर्ण गुण के रूप में भारत की पहचान करती है। "विविधता में एकता" एक वाक्यांश है जो विविध सांस्कृतिक, धार्मिक और अन्य जनसांख्यिकीय अंतर वाले लोगों के बीच एकता का प्रतीक है।

भारत में रहने वाले लोग एक माँ के बच्चे हैं, जिन्हें हम भारत माता कहते हैं। भारत दुनिया का एक विशाल और सबसे अधिक आबादी वाला देश है जहाँ विभिन्न धर्मों के लोग हिंदू धर्म, बौद्ध धर्म, इस्लाम, सिख धर्म, जैन धर्म, ईसाई और पारसी एक साथ रहते हैं, लेकिन हर कोई धर्म और कर्म के एक सिद्धांत में विश्वास करता है। विभिन्न संस्कृतियों, परंपराओं, धर्मों और भाषाओं से संबंधित होने के बावजूद, यहाँ लोग एक-दूसरे का सम्मान करते हैं।

महात्मा गाँधी जी ने कहा है -

"जब तक हम एकता के सूत्र में बँधे हैं, तब तक मजबूत हैं
और जब तक खण्डित हैं, तब तक कमजोर हैं।"

भारत में विविधता अवधारणा में एकता सभी को एक मजबूत संदेश देता है कि कुछ भी एकता के बिना नहीं हो सकता है। प्यार के साथ मिलकर रहना जीवन का वास्तविक सार है।

आई

आईची महानता सांगायला
शब्द आयुष्यभर संपणार नाही,
तिचे उपकार फेडायला
सात जन्म सुध्दा पुरणार नाही,
माझा विचार करणे
तिने कधीच सोडले नाही,
माझे बोलणे तिने कधीही
मनावर घेतले नाही,
अनेकदा ती जेवण्यासाठी थांबायची
मी मात्र न सांगता बाहेरून खाऊन यायची,
देवाकडे एकच मागणं आहे
भरपूर आयुष्य लाभो तिला,
प्रत्येक जन्मी तिच्याच पोटी जन्म दे मला !

मुंबईमध्ये रस्त्यावर गर्दी
शेवटी मुंबईकरांच्या लक्षात आले
कोरोना असा घरात बसून
मरणार नाही
त्याला गर्दीतच चेंगरुनचेंगरुन
मारला पाहिजे

अविरल फराटे इयत्ता- ६ वी

कोरोना

कोरोना आला, कोरोना आला....
माणसाला माणुसकी शिकवून गेला.
जग घरात बंदिस्त झाल आणि
निसर्गाने मोकळा श्वास घेतला.
आर्थिक व्यवस्था पार कोलमडून गेली,
जिवितहानीने मन धास्तावली.
ऑक्सीजन करावा लागला निर्माण,
हाच आहे धोका महान.
करूया संवर्धन निसर्गाचे,
टाळूया अतिरेक हस्तक्षेपाचे.
शाळा बंद झाल्या,
ऑनलाईन झाला अभ्यास सारा.
पब्ली, फ्री-फायरने आघात केला,
मुलांच खेळण फोनच झाला.
कसा, कुठून आला कळेना,
कोरोनावर औषध मिळेना.
मास्क - सॅनिटायझर उपाय खरा,
सुरक्षित अंतर ठेवत कोरोनावर मात करा.....

विद्येचे मंदिर

ज्ञानमंदिराचे दुसरे नाव म्हणजेच शाळा कारण माणसाला प्रगतीच्या शिखरावर नेऊन सोडणारी गोष्ट म्हणजे शाळा होय. माझ्या शाळेचे नाव विद्या प्रतिष्ठान इंग्लिश मीडियम स्कूल बिल्ट भिगवन होय. तुम्हाला नावावरूनच लक्षात आले असेल की शाळेत स्वच्छतेला घेऊन खूप महत्व असेल आणि शिस्त तर असायलाच हवी कारण ज्या ठिकाणी आपण ज्ञान आत्मसात करतो त्या ठिकाणी स्वच्छता आणि निसर्गरम्य वातावरण असायला हवे. आणि शाळेत मित्रांबरोबर मज्जा व मस्ती येते ती जगातील कोणत्याच कोपऱ्यात सापडत नाही. मी तर शाळेत खूप मजा करते आमचे शिक्षक आम्हाला हसत खेळत शिकवतात कारण त्यांचे म्हणणे आहे की जो शिक्षक हसत खेळत विद्यार्थ्यांना शिकवू शकत नाही तर तो मुळात एक उत्तम शिक्षकच नाही कारण विद्यार्थ्यांना अधूनमधून ताजेतवाने करणे गरजेचे असते. मी तर शाळेत खूप मजा करते. दोन मजली इमारत असलेली, लाल आणि पांढरा रंग दिलेल्या आमच्या शाळेत पहिली ते आठवीपर्यंतचे वर्ग आहेत. अशी आमची शाळा बाहेरून तर सुंदर आहेच परंतु शिक्षकांनी दिलेल्या ज्ञानगंगेमुळे विद्यार्थ्यांचे भविष्य उज्वल होत आहे. अशी ज्ञानाने भरपूर आणि निसर्गरम्य वातावरणात असलेली आमची शाळा आम्हा सर्वांना खूप खूप प्रिय आहे.

समृद्धी संतोष कोकरे इयत्ता-६ वी

स्वप्न

जीवनात माणसाने चांगले स्वप्न बघावे

व ते पूर्ण करण्यासाठी जीवनभर झगडावे,

स्वप्न आवडते, तेच निवडावे

व त्याच्यासाठी जीवनभर झगडावे

शेतकरी

शेतकरी म्हणतो आधुनिक जीवन जरा बाजूला सारा

ऊन असो किंवा वारा,

थंडी असो किंवा पावसाच्या धारा

तरीही राबत असतो मी; म्हणजे तुमचा शेतकरी राजा

प्रदूषण

इकडे प्रदूषण, तिकडे प्रदूषण

सगळीकडे प्रदूषणच प्रदूषण,

करा पर्यावरणाचे रक्षण

तरच होईल तुमचे संरक्षण

मैत्री

तू आहेस माझी मैत्रीण जीवाची

ठेवीन मी तुझी आठवण आयुष्यभराची,

मैत्री ही अनमोल असते

रत्नापेक्षा सुंदर असते.

समृद्धी कोकरे इयत्ता - ६ वी

वारली चित्रकला

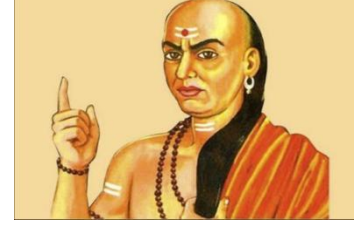

वारली चित्रकला ही महाराष्ट्रातील कोकण विभागातील वारली या आदिवासी जमातीची वैशिष्ट्यपूर्ण चित्रशैली आहे. डहाणू आणि पालघर जिल्ह्यातील परिसरात राहणा-या वारली जनजातीची ही चित्रे जगप्रसिद्ध झालेली आहेत. गेरुने सारवलेल्या भिंतीवर तांदळाच्या पिठाने साधे व सोपे आकार म्हणजेच त्रिकोण, गोल काढणे हेच वारली चित्रकलेचे वैशिष्ट्य आहेत. विविध सण समारंभ, देव-देवता, पशुपक्षी, स्त्री, पुरुष, इ. चित्रांचा प्रामुख्याने वापर केला जातो. वारली जीवनाशी संबंधित चित्रे काढणे हेच या चित्रकलेचे वैशिष्ट्ये आहेत.

अभिषेक गायकवाड इ.६ वी

कोण आहे चाणक्य ?

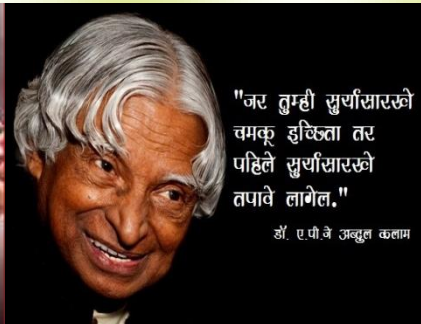

असे मानले जाते की सर्वात आधी अखंड भारताची संकल्पना आचार्य चाणक्य यांनी मांडली होती. त्या काळात भारताला आर्यावर्त असे नाव होते. आर्य म्हणजे सुसंस्कृत. आर्यावर्त म्हणजे सुसंस्कृत लोकांचा देश. ('आर्य बाहेरून आले' असा चुकीचा तर्क ब्रिटीशांनी मांडला. असे करून भारतीयांमध्ये फूट पाडायची त्यांची नीती होती. आता अलीकडच्या संशोधनातून ब्रिटीशांचा तो तर्क खोटा असल्याचे सिद्ध झाले आहे. आर्य नावाचे कुणी बाहेरून या देशात आलेच नव्हते. आर्य म्हणजे सुसंस्कृत. 'कृण्वन्तो विश्वम् आर्य' साऱ्या जगाला सुसंस्कृत करू या.) तेव्हा भारताच्या सीमा खूप विस्तृत होत्या. त्या काळात म्हणजे सुमारे 2 हजार वर्षांपूर्वी ख्रिश्चन, इस्लाम आदी धर्मांचा उदय झालेला नव्हता. भारतात छोटी-छोटी गणराज्ये नांदत होती. अखंड भारतातील संस्कृती एक होती. भारत हे एक राष्ट्र होते, मात्र गणराज्ये अनेक होती. या साऱ्या गणराज्यांना जोडून राजकीय दृष्ट्या अखंड भारत निर्माण करण्याचे स्वप्न आचार्य चाणक्य यांनी पाहिले होते. जेव्हा सम्राट सिकंदराने भारतावर आक्रमण केले तेव्हा आचार्य चाणक्य यांनी कूटनीतीने त्याला परत जाण्यास भाग पाडले. आचार्य चाणक्य यांच्यामुळेच सिकंदराला भारत जिंकता आला नाही. त्या काळी भारतातील सर्व गणराज्यांमध्ये सर्वाधिक शक्तीशाली गणराज्य मगध होते. मगधची राजधानी पाटलीपुत्र होती. या शहराला आता पटना असे नाव आहे. ही नगरी आता बिहार या राज्याची राजधानी आहे. मगध गणराज्याच्या सम्राटाचे नाव धनानंद होते. तो राजा सदैव भोग विलासात लिप्त होता. प्रजेची त्याला काहीही काळजी नव्हती. तो अन्य छोट्या-छोट्या गणराज्यांकडून मनमानी पद्धतीने कर वसूल करायचा. आचार्य चाणक्य यांनी मगध सम्राटाला सावध करण्याचा प्रयत्न केला मात्र काहीही उपयोग झाला नाही. साधारण शिक्षक असलेल्या चाणक्य यांच्यासमोर संपूर्ण भारताच्या भवितव्याची चिंता होती. म्हणून त्यांनी एका सामान्य बालकास तक्षशीला विद्यापीठात शिक्षण दिले. तोच बालक पुढे महान योद्धा चंद्रगुप्त मौर्य बनला. चंद्रगुप्ताने धनानंद याचे कुशासन मोडून काढले आणि अखंड भारताची स्थापना केली.

अनुष्का दोभाडा कक्षा – ६ वी

बालकदिनम्।

नोव्हेंबरमासस्य चतुर्दशदिनाङ्के बालदिनं सम्पद्यते। एतत् पण्डित जवाहरलाल नेहरूमहोदयस्य जन्मदिनम्। नेहरूमहोदयाय बालाः अतीव रोचन्ते। बालाः ‘ चाचा नेहरू ’ इति सम्बोधितवन्तः। अतः तेषां जन्मदिनं ‘बालदिनम्’ इति मन्यते। बालदिने बालकानां कृते विविधाः स्पर्धाः आयोजिताः भवन्ति। विविधाः कार्यक्रमाः अपि भवन्ति। बालदिनम् बालकानां कृते अतीव महत्वपूर्णं आनन्ददायी च। सर्वकारः अपि बालानां कृते विविधयोजनानाम् उद्घोषणं करोति। अस्माकं सर्वेषां बालकानां कृते बालदिनस्य महत्वम् अपूर्वम्।

सङ्गणकम्

सङ्गणकस्य युगं खलु एतत्।
 सङ्गणककार्यम् सङ्गणकस्य प्रधानं कार्यम्।
 सः विविधगणनक्रियाः करोति।
 सः यन्त्रमानवरूपेण मानवानां सहाय्यं करोति।
 बालैः सह सङ्गणकः क्रीडति अपि।
 सः विविधभाषासु अनुवादं करोति।
 सः चिकित्सकानाम् अपि सहायकः।
 सः मानवानां हिताय सदा एव तत्परः।

— ७ वी

गजः

गजः एकः विशालः पशुः अस्ति। गजः वने वसति। गजः गणेशस्य रूपं मन्यते। तस्य एका शुण्डा अपि वर्तते। सः ग्रासं खादति। तस्य उदरम् अपि विशालः अस्ति। तस्य कर्णौ दीर्घा स्तः। तस्य नयने लघु स्तः। सः अतीव शान्तः पशुः अस्ति। प्राचीनकाले सैनिकाः युद्धे अपि उपयोगं अकुर्वन्। गजः शनैः शनैः चलति। गजः मम अतीव रोचते।

बिराज पारस कक्षा — ६ वी

उद्यमेन हि सिध्यन्ति कार्याणि न मनोरथैः।
 न हि सुप्तस्य सिंस्यि प्रविशन्ति मुखे मृगाः।

अभिवादनशीलस्य नित्यं वृद्धोपसेविनः।
 चत्वारि तस्य वर्धन्ते आयुर्विद्या यशो बलम्॥

प्रियवाक्य प्रदानेन सर्वे तुष्यन्ति मानवाः।
 तस्मात् तदैव वक्तव्यम् वचने का दरिद्रता॥
