Glorious Indian History

VIII

History lays a foundation for genuine citizenship. History builds a better understanding of our glorious past. History helps us understand humanity. History Builds Empathy through studying the lives and struggles of others. Let's understand our glorious history of India.

Change Brings Opportunity

VII

Std. 7th & 8th presented the assembly on the theme "**Change - brings opportunities**".

Where they have shown how history helps us to be successful in our life. There are few reasons why we should study history -

1) History tells us about the past- Learning from the past mistakes helps us to take decision in better way.

2) History helps us to see the bigger picture - it teaches us a more balanced outlook about the world.

3) Studying history develop various skills in us. It also teaches us to ask two very important questions: why and how?

Thus it helps us to develop important skills like critical thinking, problem solving, communication etc.

Considering this in mind std. 7 presented the class assembly.

Importance of Science

VI-A

Through this assembly students told the importance of Science. Our environment is precious and it needs to be handled with almost care. Our environment gifts us so many things which are necessary for us. It is the natural ecological system where we live, depending on each other for survival. It is our home. The environment is formed of physical and biological components which interact with each other and keeps balance of our environment. So we should enjoy our gifts without exploiting and disturbing our environment and by keeping it clean and green. Considering this Std. VIA came up with the theme 'Save Environment' for class assembly. Students of VIA gave the message of 3 R's that is Reduce, Reuse and Recycle through the class assembly.

Save Environment

VI-B

Through the assembly students gave the message of save environment. Science is the greatest gift for mankind. Our daily life is very much dependent on science. From morning to night, Science plays an important role in our daily life. Science has given us television, radio, mobile phone, computers, laptops, Internet. Electrical appliances like fans, lights, washing machines, refrigerators, geysers, Irons, heaters etc. to add extra comfort to our life. The modern man can't even think of a life without Science. Without Science our life is unimaginable. The students of Std - VI B portrayed the importance of Science in everybody's life through skit, speech, song and mime act. Scientists and their inventions were presented with dance to make it easy and interesting. Everyone enjoyed getting Science concepts as it was presented in the form of dance.

Wonder of science

V-A

Our former president of India, Dr. A P J Abdul Kalam, declared that science is a wonderful gift to humanity after being in a way of its marvels. Science helped humanity advance from the Stone Age into the modern era, which is full of many conveniences.

With this broad vision and importance of science, students of std.V -A presented their class assembly on the topic "Wonders of Science in day to day life". Different wonders are depicted through the story. This story gives the explanation of science behind different phenomena like lightning, thunderstorm, water cycle, the importance of a healthy and balanced diet, photosynthesis and technology like the invention of mobile, its uses in daily life. And how it has altered our way of life.

The story starts with an alien who came to the planet Earth. An Alien had many questions about different things which were new for him. So he asks about them to his friends who live on the planet Earth and his friends explain to him about every scientific phenomenon.

Role of Science

V-B

Science has a significant impact on human lives. Everything surrounding us is the result of scientific experiments and discoveries. With its omnipresence, science has contributed to various areas of development. The healthcare industry is one of them. Today, new tools and treatments are available for treating complex health conditions. Science has made life more congenial for man. It has considerably removed the threat of diseases from our lives and brought mental peace.

Importance of English

IV-A

The students of class 4 A presented class assembly on the topic- "**Importance of English language**". Here we have shown how English helps us to be successful in our life. There are many reasons why we should learn English language.

- 1) English is the world's language. English connects people all over the world.
- 2) English is window to the world. Knowledge of English communication brings many new opportunities to us and makes us successful.
- 3) Studying English develops various Skills .English helps us to understand technology based things around us.
- 4) English makes us confident and enhances our impression in the society.

English- Today's Need

IV-B

Std. 3rd and 4th presented the assembly on the theme "**English today's need**". Here they have shown that How English helps us to be successful in our life. There are many reasons to learn English language.

- 1) English is the world's language. English connects people all over the world.
- 2) English is window to the world . Knowledge of English communication brings many new opportunities to us and makes us successful.
- 3) Studying English develops the Skills .English helps us to understand technology based things around us.
- 4) English makes us confident and enhances our impression in the society.

English- Elixir of life

III-A

Through this assembly students have given the message that how English is important for us. English is the universal language of communication worldwide. English was firstly spoken by German people. English is the second most common language spoken in India after Hindi.

Education is very important to improve yourself but learning English also improves the quality of life.

English is the language of our international communication in all areas such as politics, science, media or art and it is often language of the entertainment as well as socializing.

English – Window to the world

III-B

On the given subject students have performed the assembly. Here they have shown that How English helps us to be successful in our life. There are many reasons to learn English language.

- 1) English is the world's language. English connects people all over the world.
- 2) English is window to the world . Knowledge of English communication brings many new opportunities to us and makes us successful.
- 3) Studying English develops the Skills .English helps us to understand technology based things around us.
- 4) English makes us confident and enhances our impression in the society.

Maths is Everywhere

II-B

Std. 1st & 2nd presented the assembly by considering the theme "MATHS IS EVERYWHERE".

Where they have shown the how Maths is everywhere and how it is important to help us to be successful in our life. Without maths life would be from our theme we showed that following things about maths.

- 1) Maths is very interesting subject and it is interrelated to all other subjects.
- 2) In our daily life knowledge of Maths is needed as oxygen to us. Without Maths life is very difficult.
- 3) Shapes of Maths and it's importance and also the examples of shapes from our day to day life.
- 4) To be successful, cheerful, balanced, practical person in a life Maths is very important.

It has shown through assembly. Importance of mathematical signs in our real life.

Considering all these things in front of eyes std. 2 B presented their class assembly.

Reality of Life

II-A

Without mathematics there is nothing you can do ,everything around you is mathematics and everything around you is number. With this same thought std-2nd A presented class assembly on the theme Mathematics... reality of life. Mathematics is important part of our daily life . It is used in our everyday routine . Sometimes for every small or big matter too. Maths is used by every person. We use math concepts as well as the skills we learn from practicing math problem every day.it helps us to do many things in our daily lives.

Medical guidance on adolescence by Dr. Madhuri Jagtap

The session was organized by Vidya Pratishthan's English Medium School, Bilt, Bhigwan to guide the girls about health & hygiene in adolescent age. Dr Madhuri Jagtap guided and discussed about the health problem of girls, hormonal changes and phobicity. She guided how to handle the age of adolescent.

The girls of standard 6th to 8th attended the session, Dr. Jagtap stated that social media use can also negatively effects on adolescent child, disrupting their sleep and distracting them. Adolescent age sparks our bright future. She emphasized the importance of study habit.
